Spoke with Ed Kiely today, basically we just need a high level, 1-2 pager on: 1) History of drug testing at SLI and who we serve; 2) Volume of testing and impact of sentencing changes, etc.; 3) History of funding; and 4) Current crisis.

Al,  
I'll be in DC at the APHL Env Health Committee meeting Monday, Tuesday and Wednesday. Maybe Chuck could work with Sally to provide the information in a timely manner. Nice to see that we got a quick response.  
Thanks,  
Julie

We need to put something together with history of funding, volume, changes in testing requests, etc. I also got a very good call from a Middlesex Co. ADA.

Hi Al,  
Could I get a write up to share with HHS about the history of the lab and the funding issues surrounding the drug lab?  
Thanks

**Subject:** Drug Laboratory

The time has come when we have no space to store drugs and a severe shortage of staff related to illness, injury and premature birth. We are seconding staff from other labs, but that only buys us a little time. We are proposing a moratorium on testing beginning February 1. We receive no support for the Drug Lab except out of the State Lab account. I don't think we have any choice at this juncture. This will delay the criminal justice system, but it is already delayed by the increasing back log. The municipalities outside of Worcester County have no alternatives. We reviewed what other states do and they generally charge local law enforcement for testing. We have never done that, so introducing it now would be very unsettling to cities and towns. Please review and process the attached letter.
